□? CLX ESSENTIALS — QA ASSESSMENT REPORT

Functional · Exploratory · UI · Usability · Regression · Security Observation

□? Assessment Overview

A comprehensive quality evaluation of CLX Essentials across 17 modules.

- □? Application: CLX Essentials
- □? Testing Types: Functional, Exploratory, UI, Usability, Regression, Security Observation
- □? Scientific Templates: Scientific Reports · Energy & Environmental Science · Proceedings of the IEEE · Chemical Reviews
- ✓̸Test Cases Designed: 358
- □? Bugs Identified: 20 Defects
- □? Execution Period: 2 Days
- □? Benchmarked Against: Microsoft Word & Google Docs

□? Core Platform

- □? Authentication
- □? Homepage
- □? Launchpad
- □? AI Assistant

□? Productivity Suite

- □? Files
- ✓̸Tasks
- □? Time Tracking
- □? Calendar
- □? Email
- □? Chat
- □? Meetings

□? Content & Documents

- □? Support Tickets
- □? PDFs
- □? Documents
- □? Spreadsheets
- □? Presentations

Testing Effort

Every phase of the QA lifecycle was executed and completed.

- ✅ Requirement Analysis — Completed
- ✅ Test Planning — Completed
- ✅ Test Case Design — 358 Cases Authored
- ✅ Scientific Template Validation — Completed
- ✅ Functional Testing — Completed
- ✅ Exploratory Testing — Completed
- ✅ Usability Assessment — Completed
- ✅ Comparative Analysis — Microsoft Word & Google Docs
- ✅ Defect Reporting — 20 Bugs Logged
- ✅ Final Assessment Report — Completed

Deliverables Submitted

All 10 deliverables were produced and submitted.

- Scientific Template Evaluation
- Workflow Analysis
- Functional Test Coverage Report
- Usability Assessment
- Microsoft Word Comparison
- Google Docs Comparison
- Defect Log — 20 Bugs
- Test Case Repository — 358 Cases
- Prioritized Issue List
- Final Assessment Report
- Automation Repository — https://github.com/harshitha-ops/clx-playwright-automation.git

Key Numbers

Test Cases Designed	**Defects Identified & Logged**	**⚡ Days to Full Execution**

358	20	2

Priority	Classification	Count
➢ P1	Highest / Critical	2
➢ P2	High	5
➢ P3	Medium	12
➢ P4	Low-Medium	1
➢ P5	Low	0
Total Bugs Raised		**20**

- ✓ Assessment Execution Duration: 2 working days
- ✓ Final Submission: 16 August 2025.
